

ORCA Capital Pool Structure and Approval Rules

Document Type: Policy | Version: 2.0 | Generated: May 2026 | Owner: ORCA Supply Chain AI

■ **PRIORITY RULE:** This document contains planning rules and context only. All live values (costs, contacts, balances) must be fetched from orca.db via MCP tools. The database is the single source of truth for all facts.

Section 1 — Capital Pool Summary

Eight capital pools fund all replenishment activity. Live available_aed and utilization_pct must always be fetched from curated_capital table via check_capital_budgets MCP tool. Values shown here are total budgets only — not live balances.

Pool ID	Pool Name	Pool Type	Total Budget (AED)	Auto-Approve Limit (AED)	Approval Threshold (AED)	Refresh Cycle	Owner Dept
CP001	Core Grocery Replenishment	Working Capital	12,000,000	50,000	500,000	Monthly	Supply Chain
CP002	Ramadan Surge Buffer	Seasonal Reserve	5,000,000	30,000	300,000	Event-Based	Commercial
CP003	Expedite & Air Freight	Logistics Reserve	2,000,000	20,000	200,000	Quarterly	Logistics
CP004	Electronics & High-Value	Category Capital	8,000,000	40,000	400,000	Monthly	Buying
CP005	Seasonal & Events	Category Capital	3,000,000	25,000	250,000	Event-Based	Commercial
CP006	Store Transfer Reserve	Transfer Budget	1,500,000	10,000	100,000	Monthly	Operations
CP007	Emergency Contingency	Reserve Fund	2,500,000	100,000	1,000,000	Annual	Finance
CP008	Dairy & Perishables	Working Capital	4,000,000	20,000	200,000	Weekly	Supply Chain

Note: Auto-Approve Limit = orders below this execute automatically (no human needed). Approval Threshold = orders above this require VP/Director sign-off. Between the two limits requires Supply Chain Manager approval.

Section 2 — Pool Assignment by Category and Order Type

Category	Standard Order Pool (Options A & B)	Expedite Pool (Option C)	Event Override Pool
Grocery	CP001 Core Grocery	CP003 Expedite	CP002 Ramadan Surge (if active)
Beverages	CP001 Core Grocery	CP003 Expedite	CP002 Ramadan Surge (if active)
Dairy	CP008 Dairy & Perish.	CP003 Expedite	CP008 (no override)
Electronics	CP004 Electronics	CP003 Expedite	CP004 (no override)
Personal Care	CP001 Core Grocery	N/A — no expedite	CP005 Seasonal (if event)
Seasonal	CP005 Seasonal	CP003 Expedite	CP005 (no override)
Home	CP001 or CP004	CP003 Expedite	CP004 DSF period
ANY (emergency)	CP007 Emergency	CP007 Emergency	When primary pool HIGH

Section 3 — Approval Routing Rules

Route	Conditions	Action	Human Required?
AUTO_EXECUTE	- Cost < pool auto_approve_limit - Pool pressure ≠ HIGH - abc_class = B or C	System executes immediately reorder_triggered = Yes	No

Route	Conditions	Action	Human Required?
ESCALATE	- Cost > pool auto_approve_limit - Any Class A order > Class A threshold - Any expedite above CP003 auto-approve - lead_time_too_late=True + CRITICAL	Human reviews HITL briefing Must respond within 48 hours Alert repeats if no response	Yes — 48hr SLA
SUSPEND	- Pool pressure_flag = HIGH - Budget < minimum viable order - Always check CP007 before SUSPEND	No order placed Alert retained for next cycle Re-evaluate when pool pressure drops	No (but alert logged)

Section 4 — Pool Pressure Thresholds

Pressure Flag	Utilization %	Meaning	Agent Action
LOW	0% – 60%	Pool healthy. Full budget available.	All options feasible. Normal scoring.
MEDIUM	61% – 85%	Pool moderately used. Budget constrained.	All options feasible but monitor. Flag high-cost orders.
HIGH	86% – 100%	Pool severely constrained. Minimal budget.	ELIMINATE all options using this pool. Route to SUSPEND or CP0
