

ORCA Supplier SLA and Planning Rules

Document Type: Supplier Context | Version: 3.0 | Generated: May 2026 | Owner: ORCA Supply Chain AI

PRIORITY RULE: This document contains planning rules and context only. All live values (costs, contacts, balances) must be fetched from orca.db via MCP tools. The database is the single source of truth for all facts.

Section 1 — Supplier SLA Matrix

This table summarises all active suppliers. Lead times and scores shown are standard values from the master data. Always fetch live effective_lead_time from the database — it is adjusted for reliability score.

ID	Supplier Name	Country	Category	Std Lead (days)	Reliability (1-5)	Expedite?	Exp Premium (%)	Payment (days)
SUP001	Al Rawdah Foods	Saudi Arabia	Grocery	30	4.2	✓	35%	30
SUP002	Emirates Dairy Co	UAE	Dairy	5	4.8	✓	20%	15
SUP003	Gulf Beverages LLC	UAE	Beverages	7	4.5	✓	25%	30
SUP004	Hindustan FMCG	India	Personal Care	45	3.9	✗	N/A	45
SUP005	Dragon Imports	China	Seasonal	60	3.5	✓	50%	60
SUP006	TechLine Asia	China	Electronics	50	4.1	✓	40%	60
SUP007	Nile Home Products	Egypt	Home	35	4	✓	30%	45
SUP008	Arabian Agri	Saudi Arabia	Grocery	25	4.3	✓	30%	30
SUP009	Pakistan Rice Mills	Pakistan	Grocery	40	3.7	✗	N/A	45
SUP010	Organic Fields UAE	UAE	Grocery	3	4.9	✓	15%	15

Note: Effective lead time = Std Lead × (1 + (5 – reliability) × 0.1). Always use curated_skus.effective_lead_time from the database for planning.

Section 2 — Planning Rules by Category

Electronics — TechLine Asia (SUP006)

- Longest lead time category. Plan all events 80+ days ahead.
- Dubai Shopping Festival Electronics: order by October 27 for January 15 start.
- Back to School Electronics: order by June 17 for September 1 start.
- Add 2-day customs inspection buffer to every Electronics shipment.
- Expedite available at high premium. Use for CRITICAL Class A urgency only.
- Expedite lead time ≈ 19 days (35% of ~54-day effective lead time).

Beverages — Gulf Beverages LLC (SUP003)

- Shortest practical lead time among import suppliers. Standard orders always safe.
- Ramadan uplift 180% — order 2.8× normal qty 60 days before Ramadan start.
- Summer Season uplift 60% — increase orders throughout June to August.
- High reliability. No extra buffer needed. Standard planning sufficient.

Dairy — Emirates Dairy Co (SUP002)

- Perishable category. Maximum order horizon: 14 days supply only.
- Never order more than 10 days supply at once — waste risk.
- Cold chain compliance mandatory on delivery. Reject non-compliant loads.

- Expedite rarely needed given short lead time.

Personal Care — Hindustan FMCG (SUP004) ■ NO EXPEDITE

- CRITICAL: No expedite available. No alternative supplier.
- Any Personal Care CRITICAL alert with lead_time_too_late=True must escalate to human.
- Plan all Personal Care orders 60 days ahead for any event.
- If CRITICAL + no expedite: recommend SUSPEND and notify procurement immediately.

Seasonal — Dragon Imports (SUP005) ■ LOWEST RELIABILITY

- Longest standard lead time in portfolio. Lowest reliability score.
- Add 14-day buffer beyond standard lead time for all Seasonal planning.
- National Day Seasonal items: order 90 days before December 2.
- Eid Al Adha Seasonal: order 80 days before event start.
- Expedite premium is very high — only use for CRITICAL Class A urgency.
- Always add 5-day customs clearance buffer for China shipments.

Grocery — Multiple Suppliers

- Al Rawdah Foods (SUP001, Saudi Arabia): add 2-day customs buffer.
- Arabian Agri (SUP008, Saudi Arabia): primary Dates supplier.
- → Ajwa Dates Ramadan: order 300% normal qty 75 days before Ramadan start.
- Pakistan Rice Mills (SUP009) ■ NO EXPEDITE: plan 60 days ahead.
- → Any Rice CRITICAL alert must auto-escalate to human immediately.
- Organic Fields UAE (SUP010): highest reliability, use as emergency backup.

Section 3 — Expedite Decision Rules

Condition	Action
lead_time_too_late=True AND allows_expedite=Yes	Recommend Option C (Expedite)
critical_stores > 5 AND std lead_time > 20 days	Evaluate Option C first
Event within effective_lead_time AND uplift > 150%	Expedite mandatory
abc_class = C (low value)	Standard only unless Tier-1 stockout confirmed
CP003 pool_pressure_flag = HIGH	Option C eliminated — no budget
allows_expedite = No	Escalate to human immediately — no Option C
expedite_premium > 50% AND urgency = MEDIUM	Not worth premium — use standard

Section 4 — Contact Resolution Rule

NEVER hardcode supplier contacts in agent output. Always call `get_supplier_info(sku_id)` via MCP to resolve `contact_name` and `contact_email` dynamically. The database is the single source of truth. Contacts change — this document does not update automatically.
